

SUMMER
CAMP

INTERNATIONAL SUMMERCAMP 2011

SCHOOL'S OUT FOR SUMMER

summer break is the opposite of boring! finally time for THE important thing in life: music!

in this amazing summer week you'll be part of either a band, an instrumental unit or a producers' group. the time you're not rehearsing or needed in the studio you can take part in group or single instrumental lessons with our team of professionals, join a songwriter's team, sign up for recording sessions in the studio or just relax!

join a creative time, be wild, get inspiration – have a lot of fun!

TOOLS

a variety of workshops are offered and it's up to you which tools to concentrate on. there is definitely enough time to try out about everything. be self dependent, ambitious and productive: enlist in the entrance hall for lessons and workshops and/or get in touch with the coaches!

INSTRUMENTAL LESSONS

you can sign up for instrumental lessons in vocals, guitar, bass, keyboards, and drums. it will be possible to ask for single lessons or to join a group. the coaches are going to decide on this depending on the individual level of the participants and on the amount of requests for lessons.

SONGWRITING

working on your own songs or together in teams. attended by professional songwriters, we want you to achieve the best results and maybe even work on some demos in one of our two studios. especially for singers/songwriters who are just starting and who didn't get an own band to work with, this is the place to be on the up and up.

CONCERTS

everybody will get the chance to present their working results of the week on friday night. don't try to be perfect – just be on stage and rock the crowd! on thursday we've got the chance to relax and bang our heads. the intersphere and fire walk with me will make a lot of noise just for us.

TOOLS

BANDCOACHING

experienced bandcoaches are going to work with you and will give you some worthy advice concerning interplay, song structure, team work, and a lot more. the acts are performing at the final concert on friday 6th.

PERFORMANCE

for bands or solo artists progressing very quickly, there is the possibility to join performance lessons on stage. you'll be surprised how much a coach will notice, that you don't.

PRODUCING & RECORDING

the producers are going to get to know two different studios together with their coaches. in the course of the first days, you get the chance to check out what the bands currently work on while you'll also participate in their working process, if necessary. as soon as the bands, solo artists, or songwriting groups are ready you are going to have the task to record and produce their demos and give it your personal note. you'll also be asked to join as instrumentalists so: tuff task! we are curious about the outcome already!

BODYPERCUSSION

the other possibility to wake up. Just join in clap your hands say yeah!

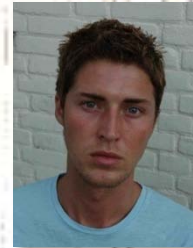

THE 2010 COACHES WERE...

prof. udo dahmen
mathias leber
peter wölpl
michelle leonard
koen-willem toering
kai eckhardt
